

High Security Motorised Safe Range

You Value it, We Protect it.

At Yale, we pride ourselves in protecting the things that matter the most to you. The High Security Motorised Safes will keep your most important belongings secure and safe with a laser cut door for protection against attacks and with a pin code, you are able to gain quick access to your safe. Scare away any unwanted visitors with lock down for one minute after 3 incorrect attempts.

The internal light gives you clear visibility of your valuables and the internal hooks makes it more convenient for you to keep your things organised and clearly displayed.

Whether that's your camera to capture those special moments or a sentimental belonging, we have the right safe to suit you.

Modern design to suit your home

Plus modern functionalities such as automatic door opening and LCD keypad display for quick access. You can also keep your things organised with internal hooks and an internal light to clearly display your belongings.

Total peace of mind

The safes come with motorised locking mechanism with two anti-saw locking bolts (20mm) and laser cut door for protection against all attacks.

One less thing to think about

If you need emergency access to your safe, you have the option to use a 9V battery (not included) to gain quick access.

Flexibility

You can now choose how to protect your belongings either by pin code or mechanical key to open the safe.
